

REMARKS

Multiple dependencies have been canceled in claim 5. Reference numerals have been removed from all claims.

Substitute Specification

The applicant invokes 37 CFR 1.125, allowing use of a substitute specification, so that the Examiner has a clean copy of the specification for work purposes, since the literal translation lacks headings and paragraph numbering. Per 37 CFR 1.125, No new matter has been added to the substitute specification.

Paragraph numbering and headings have been added to the literal translation of the German specification, which serves as the basis from which all amendments are made. Headings have been inserted as follows:

The heading "Technical Field" is added before [0001];

The heading "Background of the Invention" is added between [0001] and [0002];

The heading "Summary of the Invention" is added between [0002] and [0003];

The heading "Brief Description of the Drawings" is added between [0010] and [0011];

The heading "Detailed Description of the Invention" is added between [0015] and [0016].

Prompt consideration of this application and allowance of the claims are requested. If the Examiner should have any question regarding this application or the amendment, a call to Applicant's attorney would be appreciated.

Respectfully submitted,
